ABOUT THE SITE

LyondellBasell's Maasvlakte site is located in the Port of Rotterdam. The site is the largest propylene oxide/styrene monomer plant in the world. In addition to the plant and storage park, the site houses a laboratory, office building, maintenance workshops, on-site rail track and truck terminal for loading and a deep sea harbor. LyondellBasell and Covestro each own 50 percent of the plant, with LyondellBasell serving as operator. Although Botlek and Maasvlakte sites each have their own operations and maintenance organization, both sites - referred to as BOMA - are headed by one management team.

ECONOMIC IMPACT

\$321 million

Estimate includes yearly total for goods & services purchased and employee pay and benefits, excluding raw materials purchased (basis 2016)

COMMUNITY ENGAGEMENT

LyondellBasell is committed to being a responsible, good neighbor in the communities where we operate. The site collaborates with the Education Information Center Mainport Rotterdam to increase awareness of job opportunities for students and also participates in efforts at local schools. The site offers regular plant tours to groups such as professionals and students, and holds open days where the public is invited in.
